Caution Regarding Forward Looking Information

This report may contain forward-looking statements including, but not limited to, statements about the Fund, its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “anticipates”, “believes”, “estimates”, “expects”, “intends”, “plans”, “may”, or future or conditional verbs such as “will”, “should”, “would” and “could”, and similar forward-looking expressions or negative versions thereof. In addition, any statements that may be made concerning future performance, strategies or prospects, or anticipated Fund changes or other actions (including those described in the Recent Developments section of this report), are also forward-looking statements.

Forward-looking statements are based on current expectations and projections about future general economic, political, and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general economic and business environment, in each case assuming no material changes to applicable tax or other laws, government regulations, or policies.

By their very nature, forward-looking statements involve numerous assumptions and are subject to inherent risks and uncertainties, which give rise to the possibility that the Fund’s predictions, forecasts, projections, expectations, and conclusions will not prove to be accurate, and that its assumptions may not be correct.

Forward-looking statements are not guarantees of future performance, and actual events could differ materially from those expressed or implied in any forward-looking statements made by the Fund. A variety of factors, many of which are beyond the Fund’s control, may cause actual results to differ materially from the expectations expressed in the forward-looking statements. These factors include, but are not limited to, general economic, political, and relevant market factors in North America and internationally, interest and foreign exchange rates, equity and capital markets, business competition, technological change, changes in government relations, unexpected judicial or regulatory proceedings or decisions and catastrophic events, including natural disasters, pandemics, war and other risks described in the Fund’s current simplified prospectus. The above-mentioned list of important factors is not exhaustive.

Before making any investment decisions, investors and others relying on forward-looking statements should carefully consider the foregoing factors and the uncertainties and risks they contain. We caution readers not to place undue reliance on these forward-looking statements.

Forward-looking statements are issued in good faith and may be modified without notice. We assume no obligation to update forward-looking statements in the light of new information, future events, or other circumstances unless applicable legislation so requires.

Management Discussion of the Performance of the CWB Onyx Diversified Income Fund

Investment Objectives and Strategies

The investment objective of the CWB Onyx Diversified Income Fund (the “Fund”) is to provide unit holders with steady income and some principal growth, while preserving principal and reducing volatility, by investing in a diversified portfolio of fixed income securities and preferred shares.

The Fund will invest in fixed income securities issued or guaranteed by governments and corporations globally. Convertible debentures, non-investment grade corporate debt, emerging market bonds and preferred shares are fixed income categories that may be utilized within the overall asset mix of the Fund to enhance yield and manage risk. The Fund can invest up to 30% of the Fund’s assets in foreign securities of which the currency exposure denominated in foreign currencies may be actively managed.

Risks

No changes to the Fund affecting the Fund’s overall level of risk were made during the 12-month period ended December 31, 2025 (the “Period”). The risks of investing in the Fund and the suitability of the Fund for investors remain as discussed in the Fund’s most recent simplified prospectus or any amendments or fund facts.

Results of Operations

Over the Period, the Fund’s net assets decreased by \$36,221,141 to \$153,872,772. This reflects an increase of \$7,628,397 from investment performance, distributions to unitholders of \$6,855,177, and net withdrawals of \$36,994,361.

Series A of the Fund returned 3.12% over the Period versus the Fund’s internal benchmark (the “Fund Benchmark”), the FTSE Canada Universe Bond Index, which returned 2.64% over the Period. Unlike the Fund Benchmark, the Fund’s return is calculated after the deduction of fees and expenses. Returns for Series O of the Fund may vary, largely due to differences in fees and expenses.

President Trump was inaugurated for his second term in January and introduced comprehensive tariffs on multiple countries on April 2, an event termed “Liberation Day.” This announcement triggered a significant, though brief, market correction, as tariffs were delayed in some cases, reduced in others, or even raised. Most of Canada’s trade with the U.S. is covered under the Canada-United States-Mexico Free Trade Agreement (CUSMA) and thus largely exempt from these measures. However, ongoing uncertainty regarding U.S. policy and concerns over potential future tariffs contributed to subdued economic growth in Canada. With inflation near target, the Bank of Canada lowered its key interest rate from 3.25% to 2.25% in 2025 to support economic activity, while the U.S. maintained steady rates.

We anticipated that, despite higher day-to-day volatility, there would be limited year-on-year movement in the yield curve or in credit spreads. The Fund was positioned overweight credit, and slightly long duration, in an effort to capture higher than benchmark interest income. The overweight in credit, and a slight decline in credit spreads contributed to fund performance.

Recent Developments

Economic growth in Canada is projected to remain below average in 2026 amid stable interest rates. The scheduled CUSMA review begins on July 1, with the U.S. signaling intentions to request substantial concessions from Canada as a condition for agreement renewal. Failure to renew CUSMA could negatively affect the Canadian economy and contribute to increased inflationary pressures in the United States.

Acquisition of Canadian Western Bank by National Bank of Canada and Related Fund Changes

On February 3, 2025, National Bank of Canada completed its acquisition of Canadian Western Bank resulting in a change in control of CWB WM. At that time CWB WM became a wholly owned subsidiary of National Bank of Canada. CWB WM has announced certain planned changes to the Fund as part of the integration of CWB WM's products and services with those of National Bank of Canada and its affiliates. These changes are described below.

i. Termination of Series A

After the close of business on or about March 31, 2026, Series A units of the Fund will be terminated. At that time, units will be redeemed at their net asset value and proceeds distributed to unitholders.

ii. Application to Cease to be a Reporting Issuer

On March 9, 2026, CWB WM filed an application with the relevant securities regulators for an order that the Fund cease to be a reporting issuer. If the order is received, the Fund will not be a reporting issuer in any jurisdiction of Canada, and Series O units of the Fund will only be offered to investors in reliance on available exemptions from the prospectus requirements under applicable securities laws. CWB WM requested to receive the order on or before June 15, 2026. However, there can be no assurance that the order will be granted on or before June 15, 2026, or at all.

iii. Change of Trustee

CWB WM anticipates that effective on or about June 15, 2026, CWB WM will resign as trustee of the Fund and Natcan Trust Company will be appointed to act as successor trustee of the Fund. Natcan Trust Company is a wholly owned subsidiary of National Bank of Canada and is an affiliate of CWB WM.

iv. Change of Manager

CWB WM anticipates that effective on or about June 15, 2026, CWB WM will resign as investment fund manager of the Fund and National Bank Trust Inc. will be appointed to act as successor investment fund manager of the Fund. National Bank Trust Inc. is a wholly owned subsidiary of National Bank of Canada and is an affiliate of CWB WM.

Related Party Transactions

CWB WM is the trustee and manager of the Fund. The Fund pays CWB WM a management fee as compensation for its services. Refer to the section titled 'Management Fees' for a summary of fees paid to CWB WM. On October 10, 2025, National Bank Financial Inc. ("NBF") became the portfolio advisor of the Fund. NBF is a wholly owned subsidiary of the National Bank of Canada and an affiliate of CWB WM.

The CWB Onyx Managed Solution funds, comprised of the CWB Onyx Conservative Solution, the CWB Onyx Balanced Solution and the CWB Onyx Growth Solution, invests in series O units of the Fund. As of December 31, 2025, 1.30% of the Series O units of the Fund are held by the CWB Onyx Conservative Solution, 6.71% of the Series O units of the Fund are held by the CWB Onyx Balanced Solution and 2.89% of the Series O units of the Fund are held by the CWB Onyx Growth Solution.

During the Period, CWB WM was party to a participating dealer agreement (the “Dealer Agreement”) with Canadian Western Financial Ltd. (“CWF”), which was a subsidiary of CWB WM. Pursuant to the Dealer Agreement, CWB WM paid CWF a monthly trailing commission equal to 1/12th of 0.50% of the net asset value attributable to units of the Fund held by CWF clients. This trailing commission will be paid directly by CWB WM and will not increase the management fee paid to CWB WM by the Fund. Effective November 24, 2025, National Bank Savings and Investments Inc. (“NBSI”) acquired the business of the CWF and assumed the Dealer Agreement. NBSI is an affiliate CWB WM.

¹ This information is derived from the Fund's audited annual financial statements. All figures presented are prepared in accordance with IFRS Accounting Standards, which require the Fund to measure the fair value of its investments based on close market prices, where the close market price falls between the bid-ask spread, which is consistent with the method used in measuring the net asset value for transactions with unitholders.

² Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the financial period.

³ Distributions were paid in cash, reinvested in additional units of the Fund or both.

Net asset value per unit	\$9.51	\$9.48	\$9.17	\$8.90	\$10.20

¹ This information is provided as at December 31 of the year shown unless otherwise stated.

² Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

³ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁴ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

The management fee for each applicable series is calculated and accrued daily as a percentage of its NAV. The annual management fees and a breakdown of the services received in consideration of the management fees, as a percentage of the management fees, for each series are as follows:

Fund	Management Fee (% of NAV)	Distribution Costs (% of Management)	Others* (% of Management Fee)
Onyx Diversified Income Fund – Series A	1.00	0.51	99.49
Onyx Diversified Income Fund – Series O	N/A	N/A	N/A

* Includes investment advisory fees, administration fees, and other operating fees

During the Period, the Fund's management fees were used by CWB WM to pay for the cost of managing the investment portfolio, providing investment analysis and recommendations, making investment decisions, making brokerage arrangements for the purchase and sales of investment portfolio, providing other services, and compensating CWB WM for acting as trustee of the Fund. CWB WM also used the management fee to fund trailing commissions and any other compensation to CWF whose clients invest in the Fund.

The Series O management fee is negotiated and paid directly by each investor and will not exceed the Series A management fee.

Past Performance

The past performance of the Fund is set out in the following charts. The performance information shown assumes that all distributions made by the Fund in the years shown were reinvested in additional securities of the Fund and would be lower if distributions were not reinvested. The performance information does not take into account

sales, redemption, distribution, or other optional charges, or income taxes payable that would have reduced returns or performance.

Mutual fund returns are not guaranteed. Please note that past performance is not indicative of future performance.

Year-by-Year Returns

The following bar chart shows the Fund’s annual performance in each of the periods shown and illustrates how the Fund’s performance has changed from period to period. The chart below shows, in percentage terms, how an investment made on January 1 would have increased or decreased by December 31, unless otherwise indicated.
